June 12th, 2019 - Classification kingdom Animalia phylum Cnidaria.

Coelenterata SpringerLink
June 14th, 2019 - The term Coelenterata is variously used to include only the Cnidaria or these plus the Ctenophora. The two groups are considered phyla by Hyman 1940 and subphyla in the Treatise on Invertebrate Paleontology Moore 1956. Here the former usage is adopted and very little attention is given to the small and geologically unimportant Ctenophora.
Professor of Biology and Geology Mount St Joseph University
May 30th, 2019 - The following is based on the classificatory schemes presented in various publications including Hickman Roberts and Larson 1997 p 272 and part F of the Treatise on Invertebrate Paleontology However it may not include all taxa listed therein because we may not have specimens of all of them for you to study
